

CENTRAL LAND COUNCIL

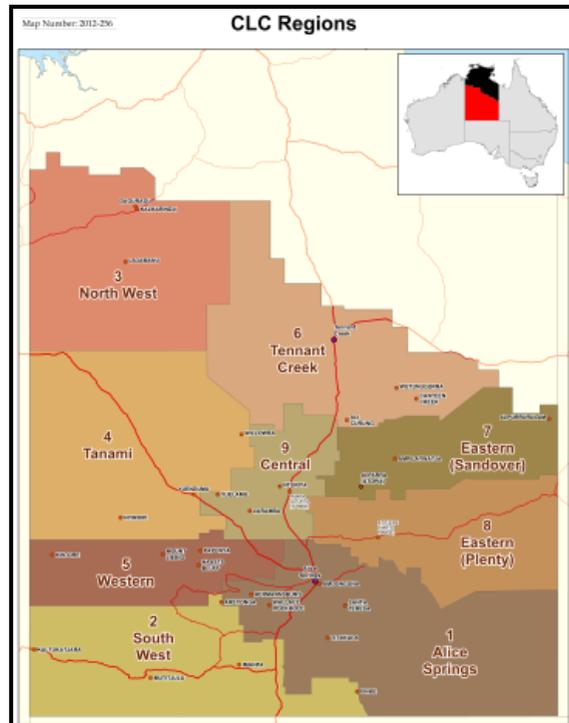

Fire Management Challenges and Opportunities in the Northern Tanami

Ben Kaethner, Environmental Management Coordinator

The Central Land Council

- The CLC is the statutory authority representing the **24,000 Aboriginal people** living across **780,000 square kilometres** of the southern half of the Northern Territory

- within the region there are more than **15 Aboriginal languages** spoken

- the Council is made up of **90 Aboriginal people elected** from communities across the region, there are 11 Executive members and one Director

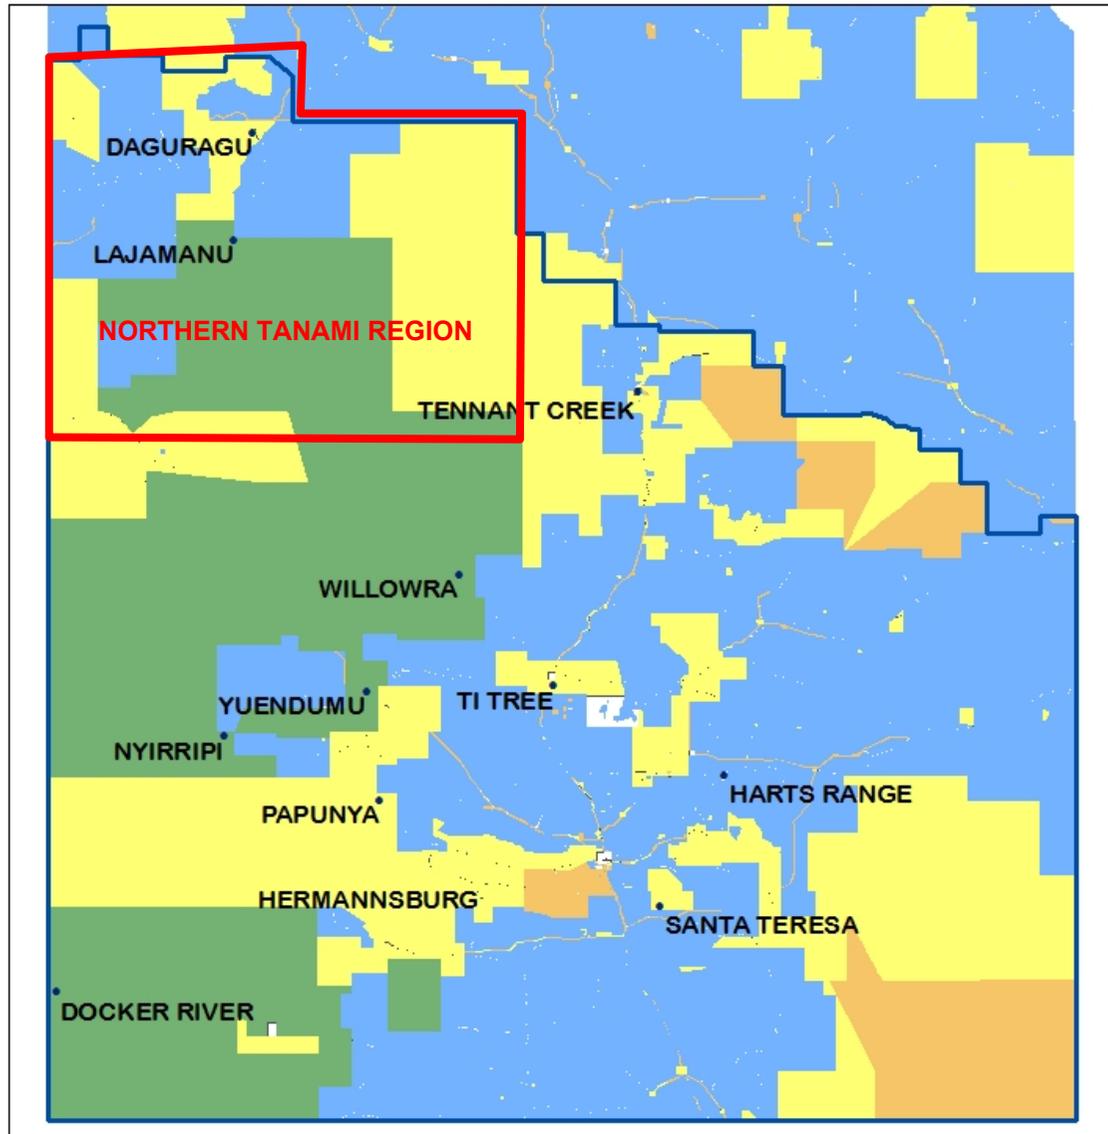

- the roots of the CLC lie in the history of **Aboriginal peoples' struggle for justice and rights to traditional lands**

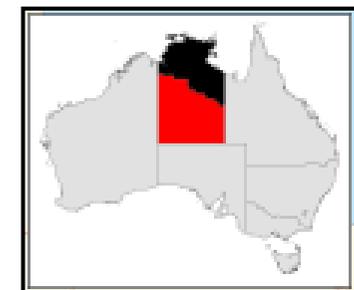

- more than **200 staff in the CLC** - over 130 staff are in the **Land Management section** and 65 are rangers

Land Tenure and Ranger Groups - CLC Region

- IPA - ALT
- Aboriginal Land
- Government
- Private

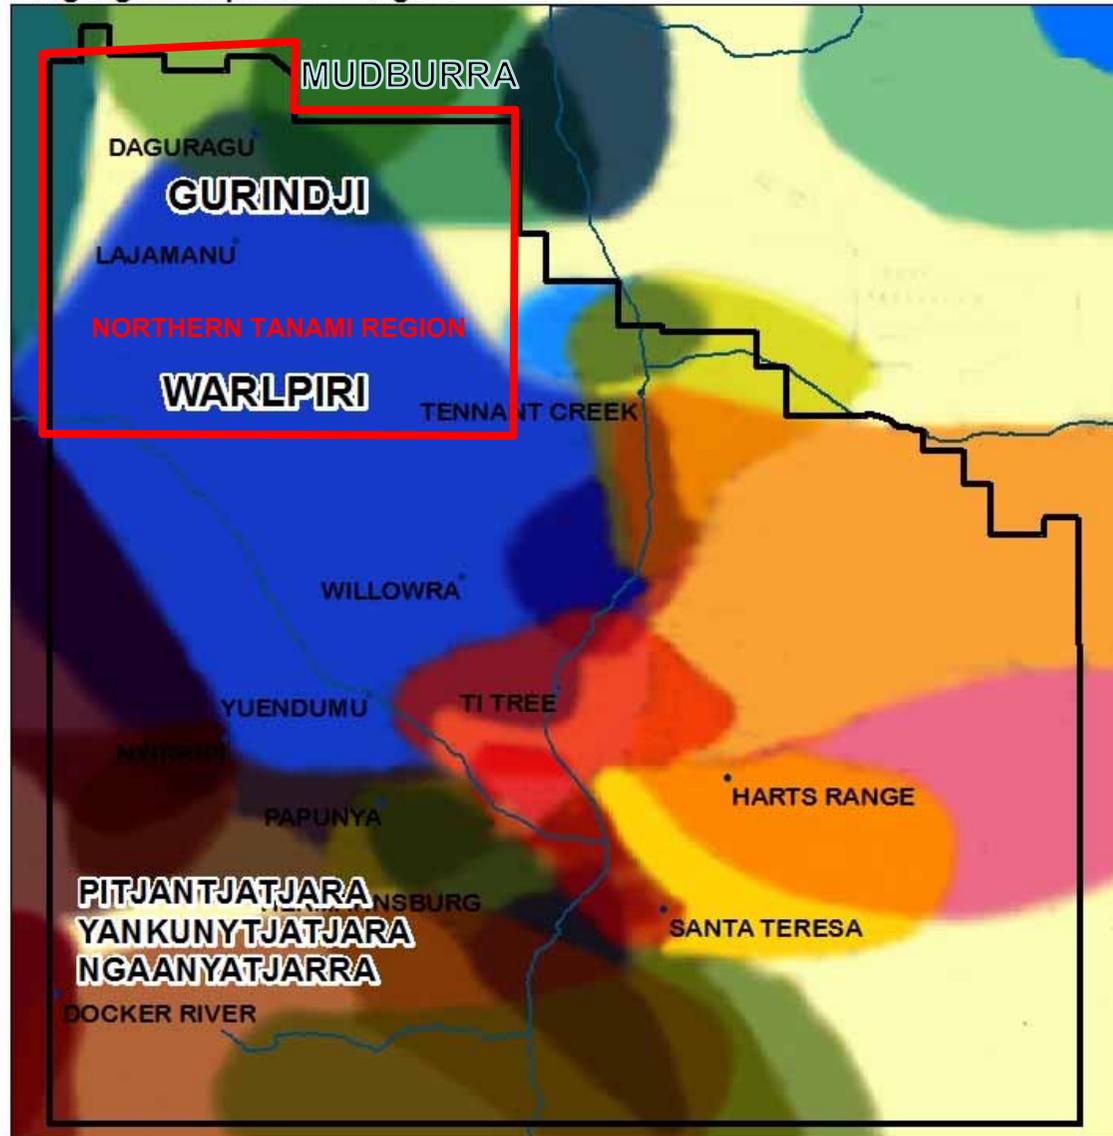

Mean Annual Rainfall - CLC Region

Language Groups - CLC Region

Arandic language group
(103 speakers)

1. Eastern Arandic (e.g. IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI)
2. Central Arandic (e.g. IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI)
3. Southern Arandic (e.g. IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI)
4. Western Arandic (e.g. IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI)
5. Jaminjung (e.g. IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI)
6. Jipijana (e.g. IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI)
7. Alawa (e.g. IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI)

Kanyere (e.g. IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI)

8. Kanyere (e.g. IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI)

Ngarrindj language group
(91 speakers)

9. Ngarrindj (e.g. IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI)
10. Ngarrindj (e.g. IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI)
11. Ngarrindj (e.g. IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI)
12. Ngarrindj (e.g. IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI)
13. Ngarrindj (e.g. IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI)
14. Ngarrindj (e.g. IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI)
15. Ngarrindj (e.g. IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI)
16. Ngarrindj (e.g. IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI)
17. Ngarrindj (e.g. IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI)
18. Ngarrindj (e.g. IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI)
19. Ngarrindj (e.g. IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI)

Ngarrindj language group
(91 speakers)

17. Ngarrindj (e.g. IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI)
18. Ngarrindj (e.g. IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI)

Ngarrindj language group
(91 speakers)

19. Ngarrindj (e.g. IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI)
20. Ngarrindj (e.g. IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI)
21. Ngarrindj (e.g. IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI)
22. Ngarrindj (e.g. IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI)

Language groups

The list shows the main language groups and dialects of Central Australia today to indicate which language groups they belong to. The list is arranged in the approximate order of the language groups, related to the order of the map.

Notes: In brackets some commonly used alternative names.

A single point to pronunciation is given as an example, with emphasis indicated as in 1996.

For most dialects the number of speakers is an estimate only.

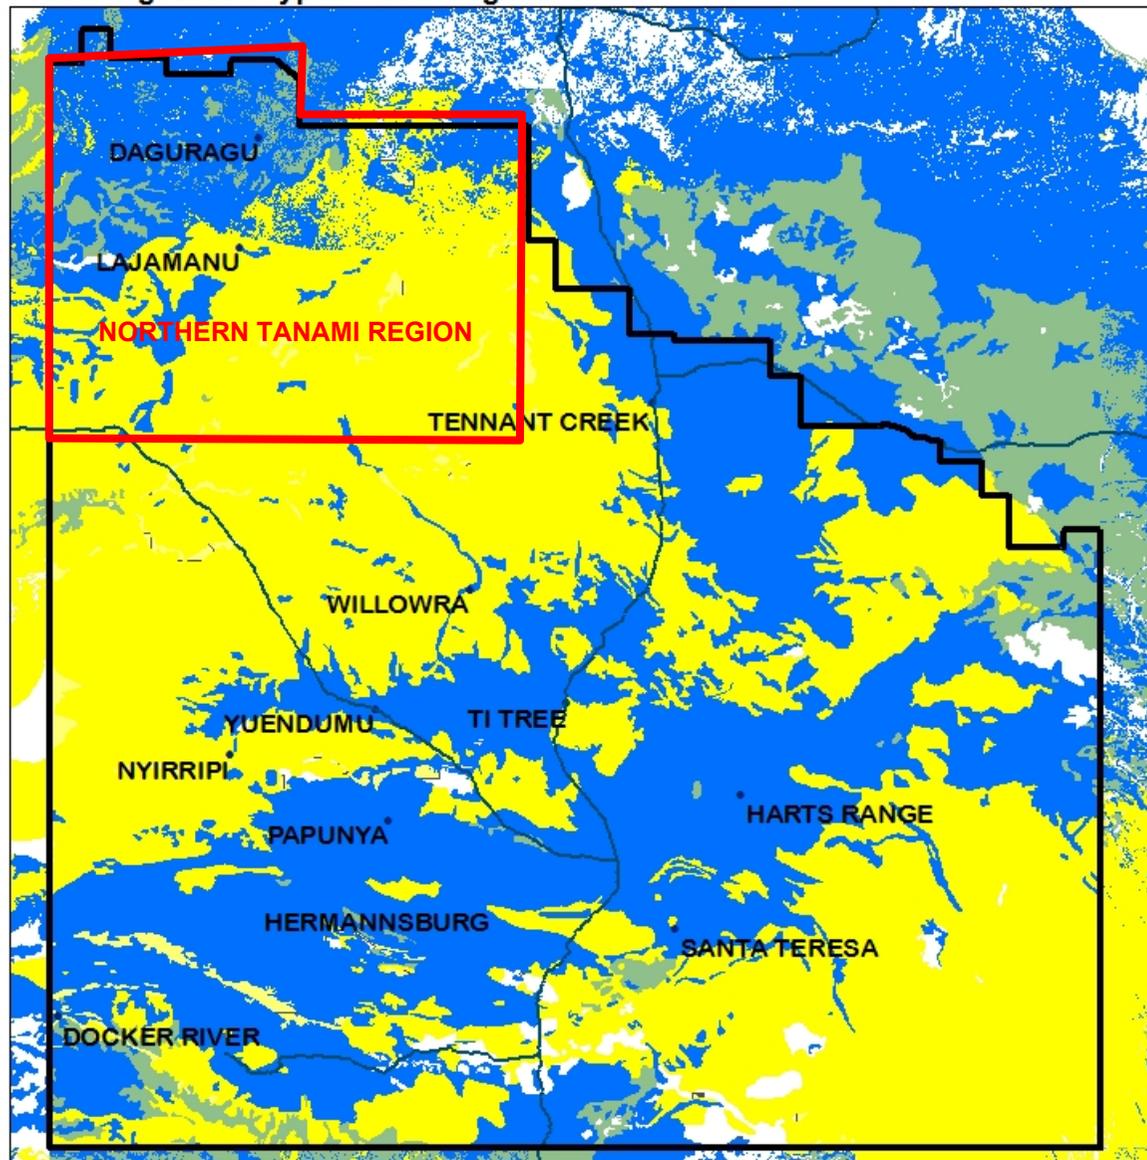

Other language groups

23. Warlangu (e.g. IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI)
24. Galkwa (e.g. IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI)
25. Jipijana (e.g. IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI, IRRNINDI)

Broad Vegetation Types - CLC Region

— CLC Boundary

— Road

MVG_NAME

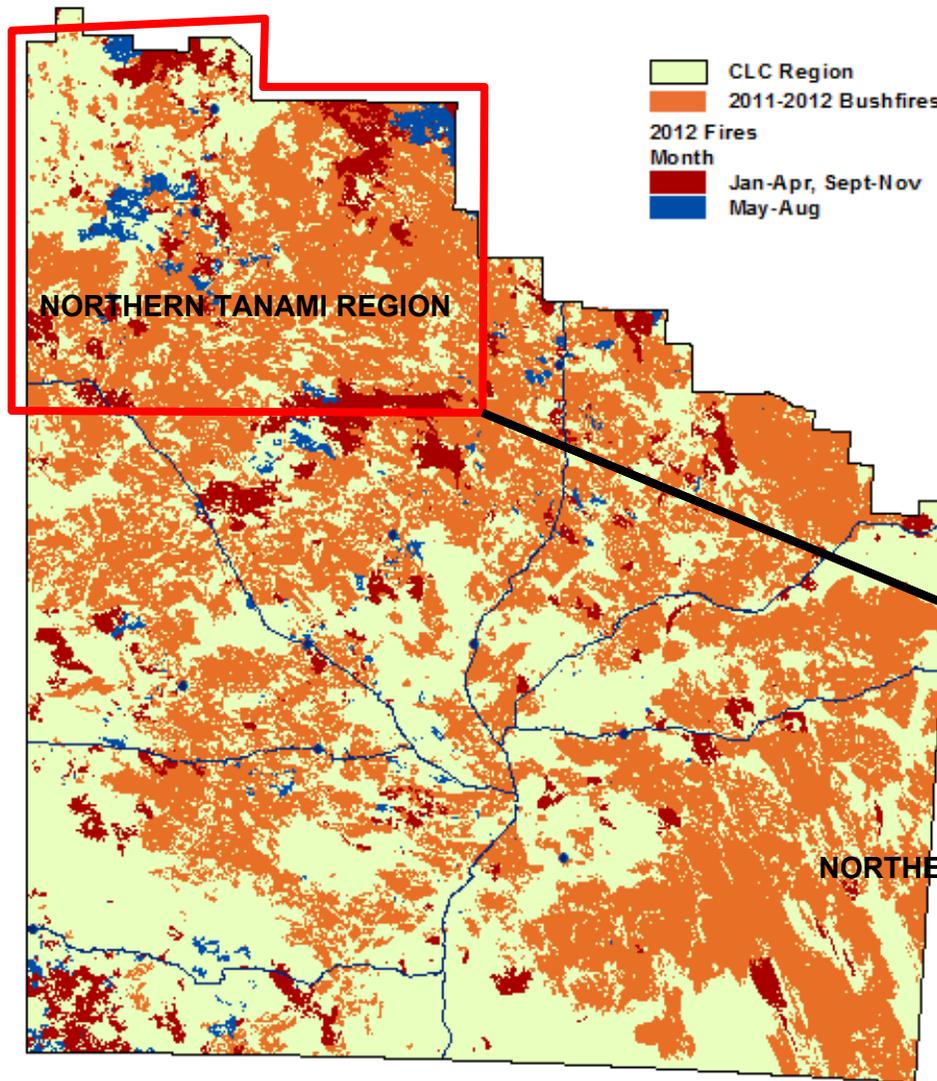

Acacia & Eucalypt Open Woodlands

Hummock Grasslands

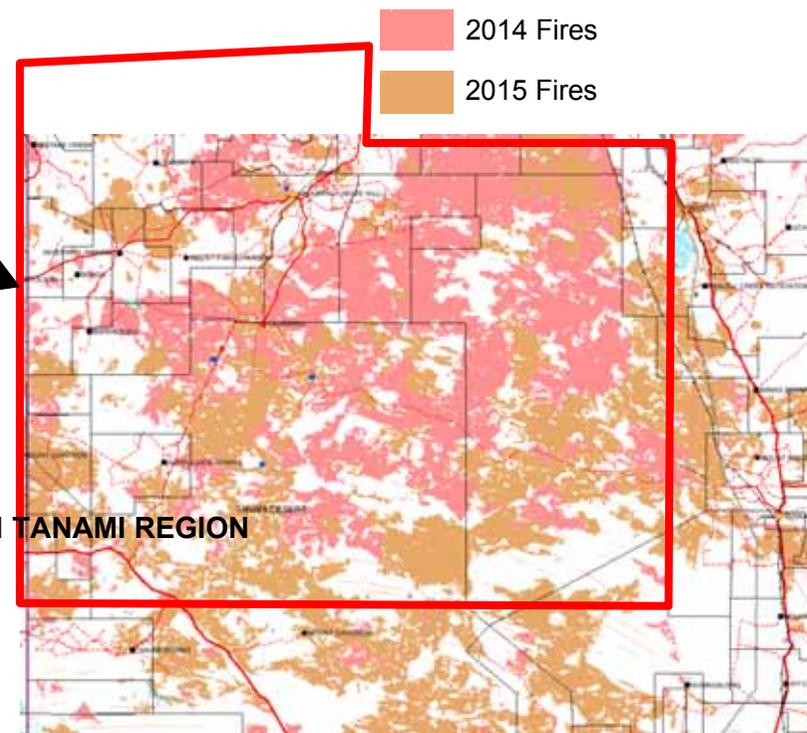

Tussock Grasslands

Fires in the CLC Region 2011-2012

- Similar scale event for the North Tanami in 2014 - 2015

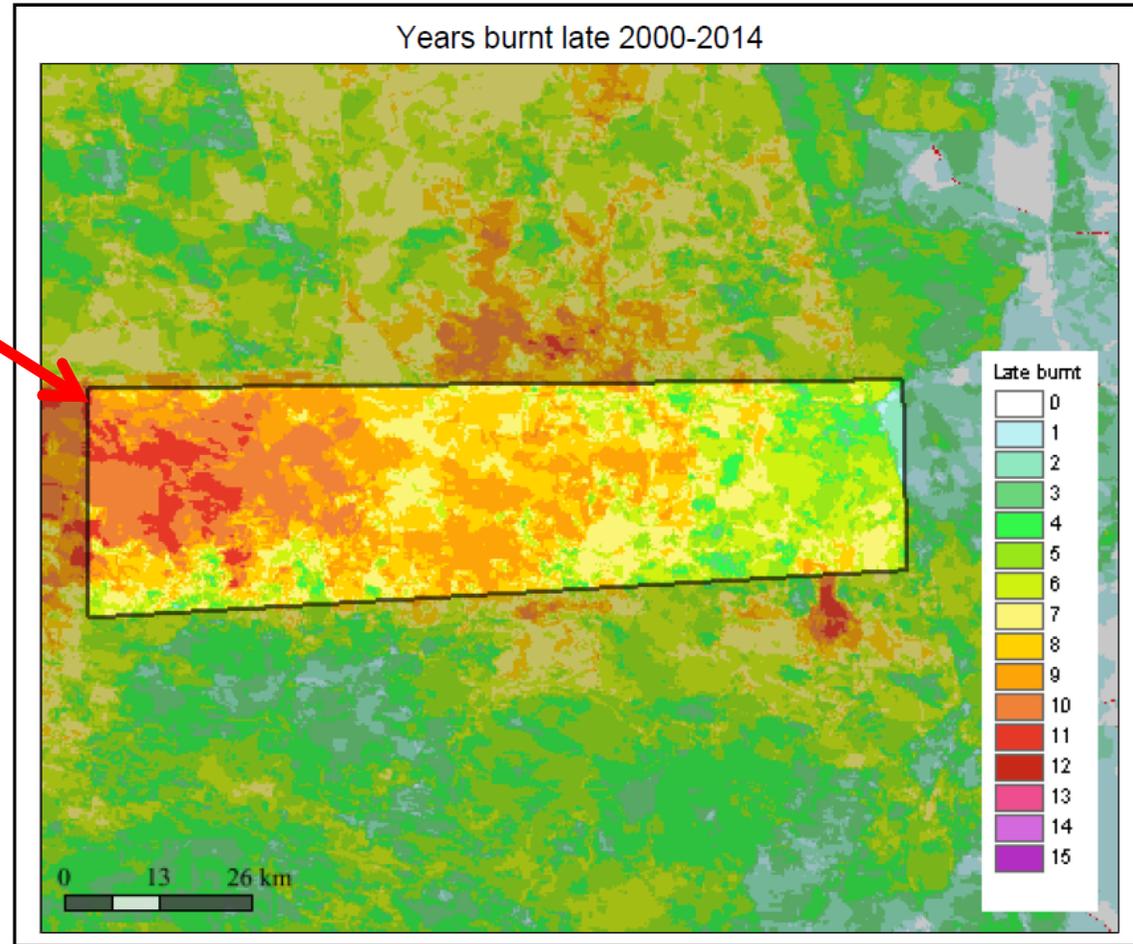

Opportunities

- Carbon abatement in the 600mm+ rainfall areas
- Karlantijpa North, Daguragu ALT, Judburra ALT (Gregory NP)
- Benefits for Elliott, Marlinja communities
 - Work, training, access to country
- Investigating sub-600mm methodology

Karlantijpa North

- ~3000km² in the 600mm+rainfall range with correct vegetation type
- Two years' of burning conducted, project is ready to be registered
- Regional fire management benefits

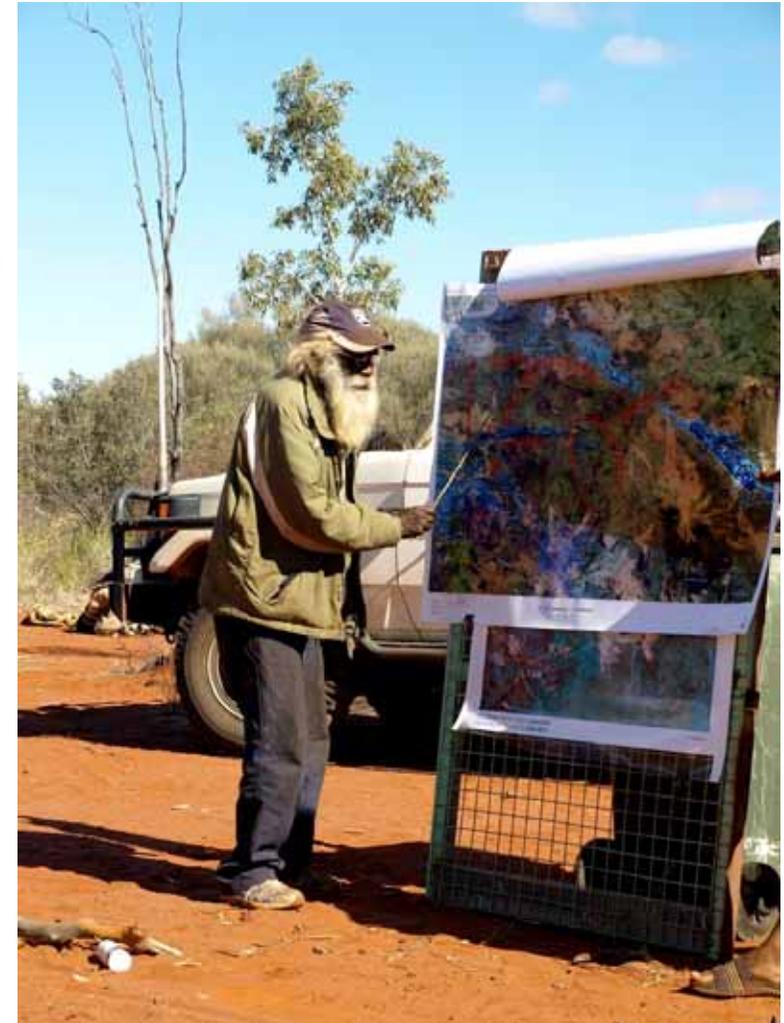

Challenges

- Big landscape requiring ongoing work
- Do we even need to do anything?
- What are we protecting?

Regional Aboriginal Fire Management Committees

- Senior community representatives review ranger fire work
- Presentations from fire authorities & scientists
- Review regional funding proposals and develop projects
- Develop work plans based on seasonal conditions

Regional Aboriginal Fire Management Committees

- Facilitated by CLC to plan and review regional fire management
- Warlu Committee represents the Tanami region (Warlpiri and Gurindji)
- Waru Tri-State Committee represents the NPY region through NT, SA & WA

Support TOs in their fire management aspirations on their land, through:

- Planning and implementing fire management works that include conservation and culture.
- Providing a link between TOs, other land managers and emergency services.
- Giving a stronger voice to Aboriginal fire managers through the formation of regional governance structures.
- Seeking funding and financial opportunities for Indigenous fire management projects
- Training rangers and Traditional Owners in contemporary fire management.

- One ABA (Aboriginals Benefits Account) - funded fire management position
- Three Biodiversity-Funded Fire Mgt positions
- Operational funds from a combination of IPA and Ranger operations, Biodiversity Fund and Territory NRM small grants

Aerial Incendiary Burning

- Efficient
- Necessary for landscape burning
- Cultural Co-benefits required

Fire Response

- Limited capacity & opportunities for experience
- Aim for all rangers to have FF1 training
- Work Safely Around Aircraft and Operate Aerial Incendiary Training

Training

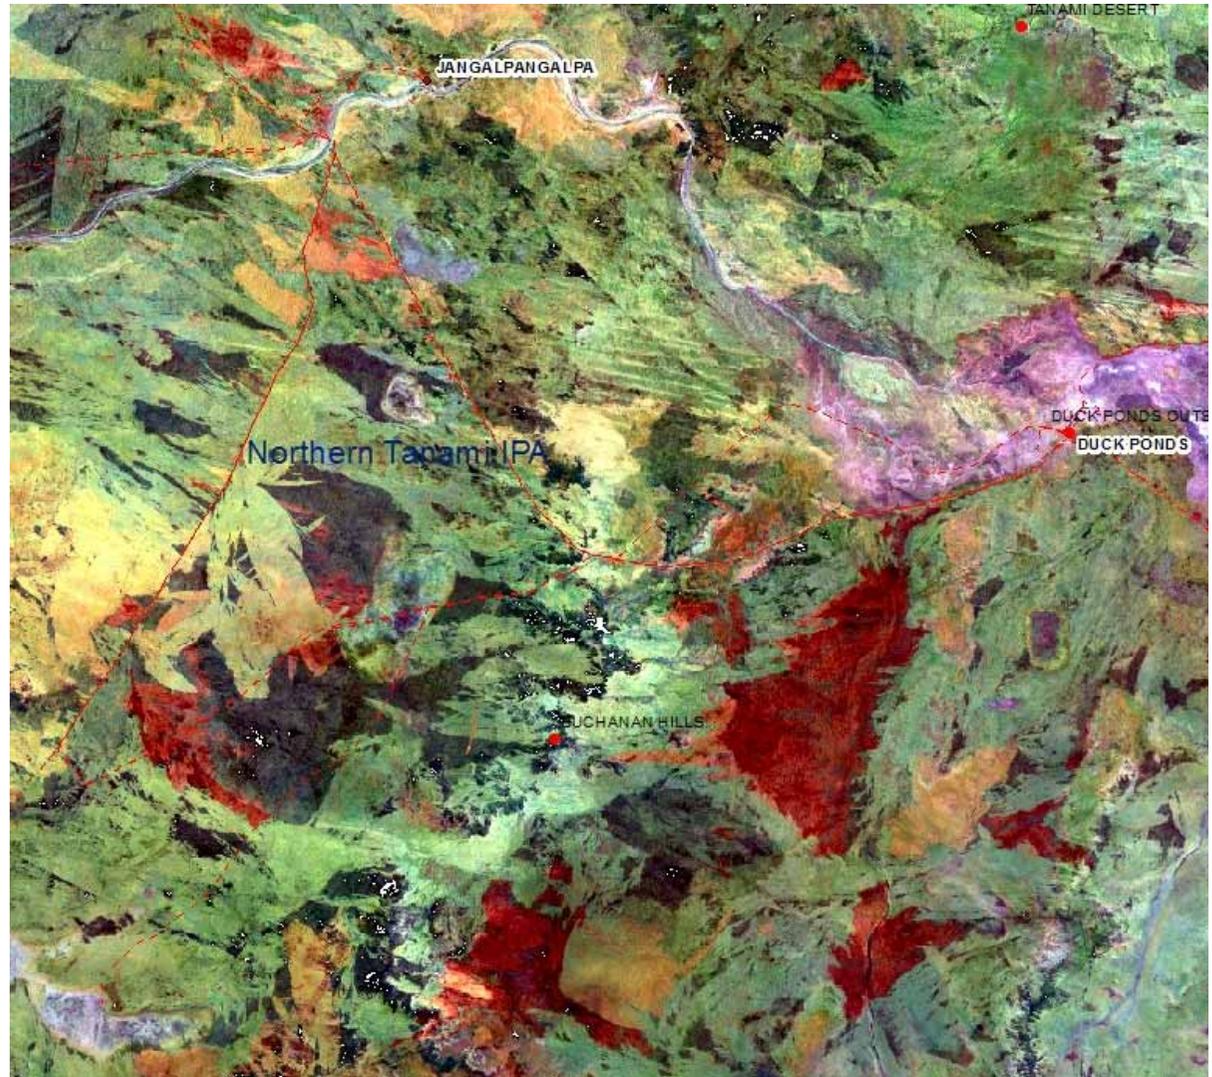

- Deliver Work Safely around Aircraft and Operate Aerial Incendiary training annually.
- Central Australian context in delivery is very important
- Currently expensive

Tools – Spatial

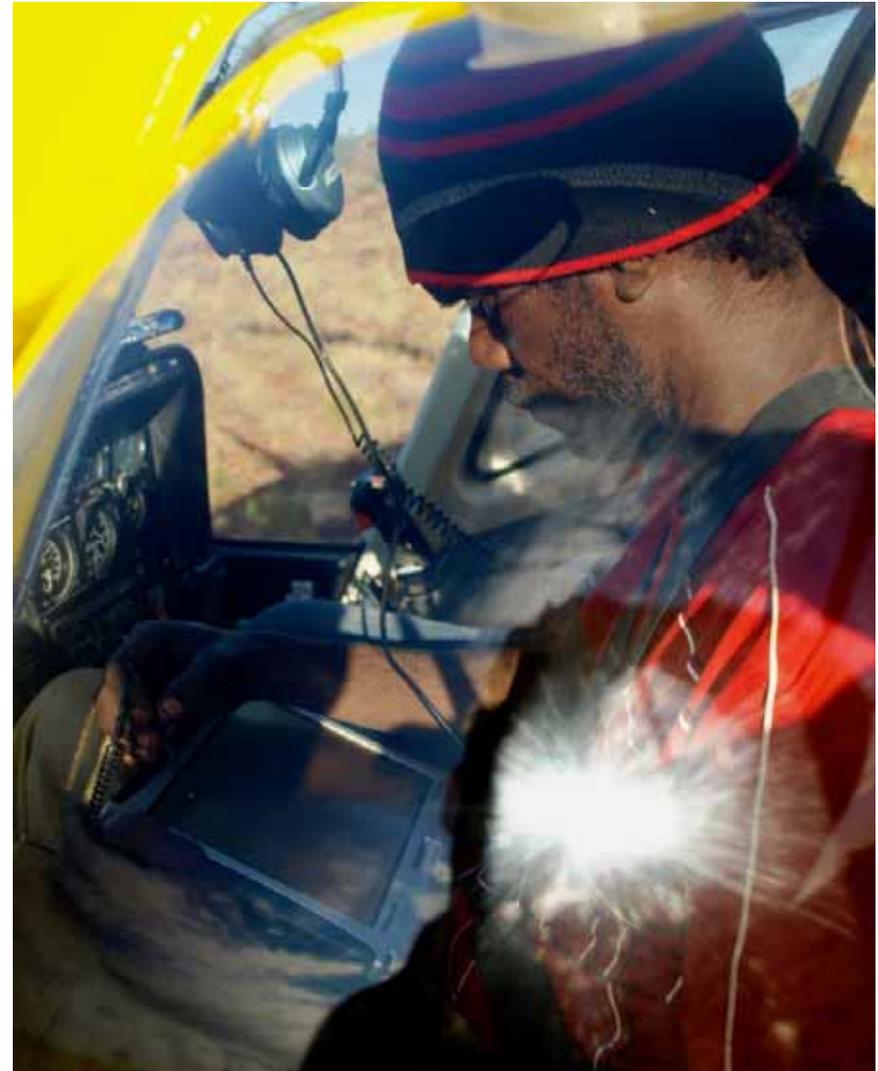

- Satellite images:
 - MODIS – 250m
 - Landsat – 30m
 - GIS mapping
- North Australia Fire Information (NAFI)
- All are good visual ways of engaging TOs in planning

Tools – Spatial

- Enhanced landscape planning capacity
- Increasing use of technology, with training requirements for rangers
- NAFI firescars adequate for reporting in most cases, but become less value as fire size decreases (the overall aim)

Key Messages

- The fire management program is dependant on Traditional Owner support, and has Indigenous culture at its core.
- Through its cultural component, it also achieves other land management goals – particularly conservation and ranger skills development
- In order to improve fire regimes (increased temporal and spatial diversity of fires) in the long term, the community must be given opportunities to conduct their own fire management.
- Spatial tools are indispensable for planning
- Ongoing fire management at identified locations is more beneficial than one-offs
- Current and future carbon abatement has the potential to offset some costs.
